

Your Partner in Electrical Engineering Solutions

OROSTAR Engineering - a name synonymous with innovation and excellence in the field of hazardous area electrical equipments. Since our inception in 2007, we've been at the forefront of innovation, constantly pushing the boundaries to provide our clients with the latest and best technology at competitive prices. We are passionate about staying at the forefront of innovation, and our R&D team continuously keeps a close eye on the markets and emerging technologies. This allows us to provide our clients with the latest and best products with faster delivery schedule. We believe that our commitment to innovation is what sets us apart in the industry, and we take pride in delivering optimum solutions to our clients.

OROSTAR is ISO, ATEX & IECEx certified, and our facility is fully equipped to manufacture custom-designed Power Panels, Junction Boxes, MV/HV JBs, PLC & HMI control panels, SCADA Systems, VFD Control Panels, Solar Panels, Distribution Boards, Control Stations, Motor Starters, Analyser Skids, Stockist of Plug & Sockets, Cable Glands, Light fictures etc, to be used in Hazardous Areas as well as Safe Areas. OROSTAR has a team of well-qualified engineers trained to support the customers in equipment selection & providing complete solutions in various industrial applications like Oil & Gas, Water Treatment, Reverse Osmosis, Food Processing, Chemical Batching, Cranes, Marine Applications etc.
